Save with Community Solar!

Whether you rent or own, tapping into solar savings has never been easier. Simply connect your utility account to join a local community solar farm and start saving on your monthly energy bill. There is nothing to install on your property, your utility still delivers reliable electricity, and it is free to join. Plus, there are no cancellation fees. Ever.

How It Works

1. Connect your utility account

Take one minute to connect your local utility account to our platform and we will enroll you in a shared community solar farm, for free.

2. Support local solar

The community solar farm produces clean energy and sends it back to your local grid.

3. We apply savings to your bill

Every month you will see savings based on your share of the community solar farm.

What Customers Are Saying

"There's no reason not to join. It doesn't cost you a penny to get started, and it supports clean energy that doesn't ruin our planet. Their bill pay has always been reliable 100% of the time, I get mileage on my credit card, and I don't even have to think about worrying if I paid it each month. I would recommend it to anyone." -Ben

Who is Arcadia Power?

Arcadia Power's online clean energy platform makes it easy for anyone who pays a power bill to support clean energy and save. Our Community Solar program connects you to a share of a local solar farm through your power bill, helping you save while supporting clean energy and the growth of your local community. Whether you rent or own, and live in a house or an apartment, Community Solar lets you access solar savings without having to install any panels on your own property. All for free, with no hidden fees or obligations.

Frequently Asked Questions

Who is eligible for Arcadia Power?

Arcadia Power is currently available to anyone that pays a power bill - whether you rent or own.

Does it cost anything?

Nope! Signing up for Community Solar with Arcadia Power is free and you can start or stop your membership at anytime.

How does Community Solar work?

Community Solar gives you the opportunity to get savings on your power bill without installing solar panels on your property. The solar farms produce electricity that is sold to your local power grid, and you receive credits from the electricity sold by signing-up for the project. This results in a lower utility bill for you, and more local solar for your community.

What happens to my utility bill?

You will pay your utility bill through Arcadia Power. You still have access to your utility account, and we ensure the solar portion of your bill always gives you savings.

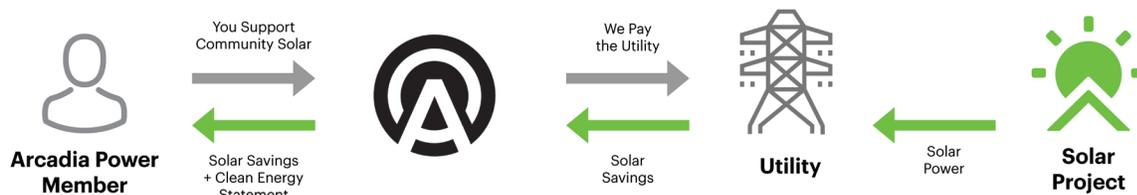

Do I need equipment?

No, you do not need to install anything at your home to enroll in this program.

Still have questions?

Our team of customer support managers are exceptionally trained and always happy to help. You can reach them at solar@arcadiapower.com or **866-526-0083**.
